Create a Bottle that's as Unique as You Are

Our Story

I created Love Bottle to help improve the physical and emotional health of our bodies and spirits, our communities, and our planet. With every sip, you can feel great knowing that you are supporting your own health, reducing plastic water bottle use, and helping to get clean water to the millions of people who need it. Using a Love Bottle is a reminder to wear our hearts out, to Stand for Love and to remember that at our core, we are all LOVE.
